

Until now, facilities where floor sockets or floor anchor systems were difficult, inconvenient or truly impossible to install had limited options when it came to selecting volleyball systems suitable for elite power volleyball.

Unlike other portable units on the market, *Arena* needs absolutely no floor anchors and no bulky, heavy, awkward, loose ballasts and extended framework. Unlike ceiling mount swing down systems, there is no custom design, extended delivery, expensive installation or difficult net height adjustment. *Arena* is totally self-contained, with built-in ballast that allows superior net tensioning and a 100% guarantee not to slip or slide on any common volleyball court flooring system including permanent or portable maple athletic flooring, synthetic floor systems or any quality clip together tile system, including but not limited to Sports Court, ActiveCourt, Spider Tile or Mateflex.

Any facility regardless of size will value the convenience of these hassle-free, super stable, totally freestanding volleyball standards.

VB8000
Arena™ Freestanding Portable Volleyball System

For arenas great and small... Every component is contained on a single rolling base for pit stop speed set up, teardown and storage • Built-in swing up officials stand on one end • Rolls easily on any floor with dual rear and single front 8" diameter, 2" wide non-marking urethane casters • Attractive and safe padding system is available in 12 school colors and does not need to be removed to set up, transport or store • When in service the padded base is 41" wide and 60" long • When folded, each rolling base stores in a 41" (w), 65" (l), 48" (h) space with no loose parts to misplace • Net tensioning, net height adjustment and the lifetime warranty 26:1 worm gear winch are identical to Bison Centerline Elite Systems • Entire steel structure has a durable powder coated finish • Arena meets all NCAA, National High School Federation and USVBA standards • 80" to 98" net height adjustment • Padding can be lettered at no extra charge (see ABC52) • Includes two bases, built-in officials stand, VB1250K net, net storage bag, VB15 antennae, safety padding system (choose from 12 colors), and net rope covers

- **Lifetime limited warranty** on posts and winch. Approx. shipping weight: 3200#; Truck
