

NEW!

Lady CarbonMax™

At last, a system designed exclusively for your women's volleyball program. Unbelievably lightweight at only 19#, yet surprisingly rigid, **Lady CarbonMax** matches the stiffness of steel systems that weigh up to three times as much!

Aerospace carbon fiber has long been the choice of engineers for products that require exceptional strength but need to be lightweight. The extension of this technology to the volleyball industry means you don't need to sacrifice easy transport and set up to get maximum performance.

With nine out of 10 high school and college volleyball programs being women's teams, it seems only natural that a system be designed specifically for set up at women's height only.

With the inclusion of Bison's premium features such as lifetime warranty net tensioning winch, Kevlar top rope net and sleek DuraSkin molded safety padding, **Lady CarbonMax** could be the best equipment investment your program will make.

VB3000

Lady CarbonMax™ Composite Volleyball System

Light as a feather yet performance that equals that of heavy steel systems... Set up is fast, easy and perfect every time, no need for net height gauges because this system is designed specifically for set up at official 7' 4 1/8" (2.24 meters) women's height only • The below-the-floor fine tuning height adjustment features allow Lady CarbonMax to be field adjusted when the system is first installed • Fits in any brand of 3" or larger floor socket • If your existing sockets are 3 1/2" or 4", Bison will provide socket adapters at no extra charge on request • The 3 1/2" high tech carbon fiber pole is fitted with a 3' tempered aluminum floor socket stem • Even at 19# (non-winch end), the post rigidity far exceeds any aluminum system on the market and equals that of steel posts that weigh as much as 60# • 26:1 lifetime warranty worm gear winch, Kevlar top rope net and unique rope ratchet side tape tensioners create the net tension preferred by elite players and coaches • Premium molded DuraSkin post safety padding results in reduced visual interference for officials, coaches and fans and can be imprinted with up to 10 letters at no extra cost (see ABC52) • Complete package includes standards, winch, VB1250K Kevlar net, net storage bag, VB15 antennae, DuraSkin molded safety padding (12 colors), pad lettering, net rope covers and VB23 floor sockets • Entire system meets all NCAA, National High School Federation and USVBA rules • Order VB73 officials stand separately • **Lifetime limited warranty** on posts and winch.

Post weight for non-winch end 19#; winch end 24#. Approx. shipping weight 120#; Truck

Common Applications

VB3000

Lady CarbonMax™ Composite

Lady CarbonMax is the best choice for facilities or programs that play exclusively at official women's height. This system is super lightweight but has the stiffness of a heavy steel system so set up is quick, easy and perfect every time.

Stiff as Steel Floor Friendly Adjustable Foot Top Rope Saving Pole Dome 26:1 Worm Gear Winch with Lifetime Warranty
